Moving Toward 2050

A Clean Energy Future

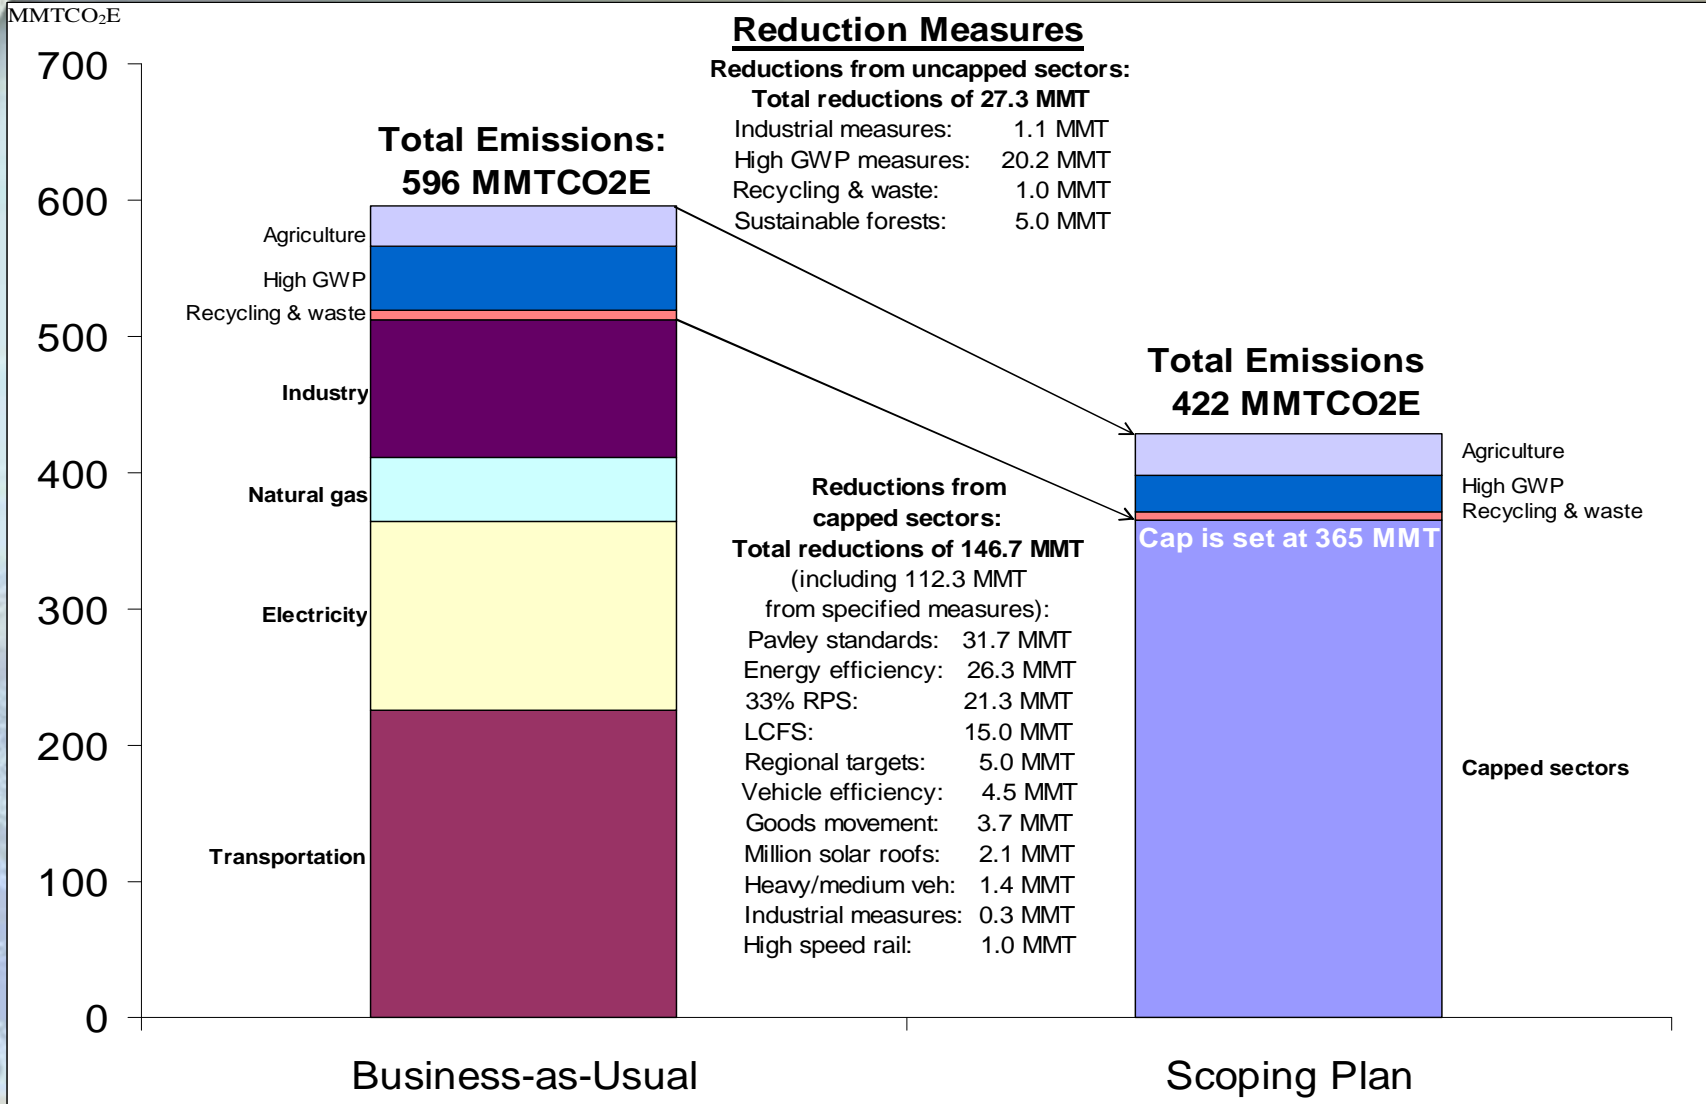

California GHG Emissions

A Demand Side View (2002-2004)

California 2020 GHG Emissions and Recommended Reduction Measures

Cars and Trucks

Scoping Plan

- Pavley greenhouse gas standards
- Vehicle efficiency measures
 - Tire tread, tire inflation, low friction oil
- Truck efficiency retrofits
- Hybrid delivery trucks

What Can You Do?

- Green your own fleet
- Improved maintenance
- Reduce driving

Energy Efficiency

Scoping Plan

- Appliance efficiency standards
- Improved building efficiency – new & existing

What Can You Do?

- Green your appliances
- Retrofit buildings to save money and energy
- Encourage conservation
- Support green building protocols and codes

Renewable Energy

Scoping Plan

- 33% renewables by 2020
- Million Solar Roofs/Solar Hot Water Heating

What Can You Do?

- Set goals for your company/agency
- Support local programs
- Take advantage of utility programs

High GWP Gases

Scoping Plan

- Limit future uses
- Capture existing banks

What Can You Do?

- Follow proper disposal practices
- Maintain refrigerators and air conditioners
- Upgrade to more efficient units
